Teacher Experience

Smart Teaching & Academic Management Tools
Nexora empowers educators with comprehensive digital tools to manage classes, subjects, students, and academic processes efficiently. It streamlines daily teaching tasks while ensuring accurate records and improved coordination across the institution.

Classroom & Subject Management

- ## Class Teacher Functions

Class Management
- View assigned class details
- Monitor total number of students
- Access class timetable
- Maintain organized class information

Attendance Management
- Mark daily attendance digitally
- Maintain accurate attendance records
- Monitor class attendance trends

Class Overview
- Track overall class status
- Ensure smooth daily operations

- ## Subject Teacher Functions

Assigned Subjects
- View subjects allocated to the teacher
- Manage subject-specific responsibilities

Study Material Upload
- Share notes, documents, and resources
- Provide digital access to learning content

Daily Academic Record
- Record topics covered in each class
- Maintain continuity in teaching progress

Assignments Management
- Create homework and projects
- Track submissions and completion status

NEXORAEDUCATIONLABS@GMAIL.COM

- ## Coordinator Functions

Multi-Class Monitoring
- View information across multiple classes
- Monitor total student strength

Attendance Overview
- Access attendance reports for all classes
- View summarized attendance data

Academic Oversight
- Review subject activities across classes
- Monitor daily academic records
- Track assignments institution-wide

Study Material Visibility
- View learning resources shared across classes

- ## Examination & Results Management

Exam Scheduling
- Create and manage examination timetables
- Organize academic assessments efficiently

Result Management
- Upload student results securely
- Maintain accurate performance records

Result Export
- Export results for reporting and printing
- Support administrative documentation

Complete Teaching Toolkit

✓ Manage assigned classes and subjects
✓ Mark and monitor attendance digitally
✓ Upload study materials and resources
✓ Maintain daily academic records
✓ Create and manage assignments
✓ Access multi-class insights and reports
✓ Schedule examinations efficiently
✓ Upload and manage student results

Nexora

The Next Era of Education

Administration Experience

-Complete School Management Control

Nexora provides school administrators with a powerful centralized system to manage operations, academic structure, communication, and institutional data efficiently. It enables complete visibility and control over the entire school ecosystem.

Institutional Overview

Dashboard Insights

- View total students, teachers, and classes at a glance
- Monitor overall institutional statistics
- Access key operational information instantly

Communication Management

Notices & Events

- Create and publish school notices or events
- Specify target audience (students, parents, staff, or specific groups)
- Ensure effective and targeted communication

User and Data Management

Student Management

- Add, update, or manage student records

Staff Management

- Manage teacher and staff information

Search Functionality

- Locate users quickly using ID or name
- Access records without delays

Appointment and Support Management

Appointment Requests

- View incoming appointment requests
- Approve or reject requests as needed

Help Requests

- Monitor and respond to support queries
- Ensure smooth issue resolution

Nexora

The Next Era of Education

Academic Administration

Academic Records

- Manage and view academic data for all classes and subjects
- Maintain centralized academic documentation

Weekly Reports

- Review reports submitted by coordinators
- Monitor academic progress across the institution

Session & Structural Management

Core Administrative Controls

Nexora provides administrators with advanced tools to manage the academic structure of the institution efficiently across academic years. It ensures continuity, accuracy, and minimal manual effort during transitions between sessions.

Session Management

Academic Session Creation

- Create new academic sessions (e.g., 2025–26, 2026–27) with ease
- Maintain a clear separation between past and current academic data

Automated Data Duplication

- Automatically replicate relevant data from the previous session
- Carry forward class structures, subjects, and configurations
- Reduce repetitive setup work each year

Student Auto-Promotion

- Promote students to the next class automatically when a new session begins
- Ensure accurate class transitions without manual re-entry

Historical Data Preservation

- Retain complete records of previous sessions
- Access past academic data for reporting and reference
- Maintain institutional continuity and compliance

NEXORAEDUCATIONLABS@GMAIL.COM

- ## Class Management

Class Structure Administration

- Add new classes or remove obsolete ones
- Adapt the system to changing institutional needs

Subject Configuration

- Modify subjects assigned to any class
- Customize academic offerings per grade level

Class Teacher Assignment

- Assign or update class teachers for each section
- Ensure clear responsibility and coordination

Flexible Updates

- Make adjustments at any time without disrupting existing records
- Support evolving academic structures
